A/Gene: EF-la; aEF-lalpha
C/Superfamily: translation elongation factor Tu; translation elongation factor Tu
C/Keywords: GTP binding; nucleotide binding; P-loop; protein biosynthesis
F/7-155/Domain: translation elongation factor Tu homology <ETU>
F/13-20/Region: nucleotide-binding motif A (P-loop)
F/152-155/Region: GTP-binding NKXD motif
                                                                                                                                                                                                                                                                                                                                                                                                                                                                      R; Tanniciello, G.; Gallo, M.; Arcari, P.; Bocchini, V.
